## INFORMATION TECHNOLOGY SOLUTIONS THAT WORK FOR YOUR FACILITY.

The demands on your staff have never been more intense. Provide high quality care, great customer service and control costs, while adhering to increasingly stringent regulations. You need information to help you manage these requirements ...and you need it now! You need comprehensive information tools that are responsive, reliable and affordable. Healthcare System Connections can help.

Our dedicated staff, located in York County, PA, will assist you with all phases of implementing our electronic health record system. Software, hardware, networks, training, support, interoperability...we do it all! Our **CueShift emr** software contains all of Pennsylvania's required information. Let our team help you connect to the future of healthcare!
